NEUROSCIENCE AND BEHAVIORAL PHYSIOLOGY

Volume 22, Numbers 1-6, 1992

Engl.

Volume 22, Number 1, January-February, 1992

Afferent and Efferent Connections of Cortical Transplants Implanted into the Damaged Sensorimotor Area of the Cerebral Cortex of Adult Rats - G. P. Obukhova, Kh. K. Gogeliya, V. V. Senatorov, and Z. Fyuleup 1

Synthesis of Proteins in the Critical Periods of Early Postnatal Ontogenesis: Its Role in the Formation of Intraspecies Aggressive Behavior of Rats - A. L. Rylov and K. V. Anokhin 6

Monosynaptic Connections in the Central Nervous System of the Edible Snail: Receptive Fields of Presynaptic Neurons - T. A. Palikhova and G. G. Arakelov 14

Role of the Lateral and Medial Hypothalamus in the Reproduction of the Motoric Reaction Which is a Signal during the Development of Classical Conditioned Reflexes - E. K. Davydova and G. A. Grigor'yan 17

Functional Role of the Neurospecific S-100 Protein in the Processes of Memory - L. A. Gromov, L. P. Syrovatskaya, and G. V. Ovinova 25

Organization of Network Properties of Cells in Local and Distributed Neuronal Networks of the Brain of Cats - G. Kh. Merzhanova and A. I. Berg 30

Change in Neuronal Excitability in Hippocampal Sections of Rats Isolated after the Destruction of the Medial Septal Area - B. M. Sidorov, V. Francesconi, and F. Berton 39

Features of the Establishment of the Spontaneous Activity of Neurons of the Trigeminal Sensory Nuclei of Viable Sections of the Rat Brainstem in Postnatal Ontogenesis - V. S. Lushchekin, E. A. Lushchekina, and K. V. Shuleikina 45

Phosphorylation of the Proteins of Synaptic Membranes during the Emergence of Prolonged Dissociated States Induced by Carbacholine - V. I. Arkhipov and T. G. Shchipakina 51

Influence of Superficial Polarization of the Cerebral Cortex of the Dog on Extinctive Inhibition - É. F. Kulitka 56

Morphometric Analysis of Synaptic Contacts in the Anterior Limbic Cortex in the Endogenous Psychoses - É. A. Aganova and N. A. Uranova 59

Results of Clinical and Enzymatic Immunoassay Study of a Neurospecific Leucine Aminopeptidase in Neurological Patients - A. P. Khokhlov, Yu. N. Savchenko, V. P. Chekhonin, E. E. Zotova, T. E. Shmidt, T. D. Zhuchenko, and S. G. Morozov 65

Participation of Glutamatergic and Dopaminergic Systems of the Neostriatum in the Organization of Alimentary Conditioned Reflexes - N. F. Suvorov, N. L. Voilokova, A. I. Gorbachevskaya, Yu. M. Dryagin, and O. G. Chivileva 71

A Method for the Diagnosis of Interhemispheric Brain Asymmetry - L. I. Marchenko and M. V. Zatoloko 81

Volume 22, Number 2, March-April, 1992

Modules of Cortical Neurons and Their "Self-Assembly" - A. S. Batuev, V. P. Babmindra, and G. V. Kolla 85

Conditioned Avoidance Reflex and Intersignal Movements: Interrelationship of Cardiac and Motor Components - É. E. Dolbakyan 92

Role of the Lateral and Medial Hypothalamus in the Reproduction of Alimentary and Defensive Instrumental Reactions - E. K. Davydova and G. A. Grigor'yan 104

Statistical Analysis of the Functional Connections between the Neurons of the Visual and Motor Cortex in Different Forms of Conditioned Reflex Behavior - G. Kh. Merzhanova and A. I. Berg 113
Selective Participation of Brain-Specific Nonhistone Np-3.5 Proteins of Chromatin in the Processes of the Reproduction of a Defensive Habit in Response to Food in Edible Snails - S. A. Kozyrev, V. P. Nikitin, and V. V. Sherstnev 120
Content of Norepinephrine and Serotonin in Symmetrical Divisions of the Brain of Rats in the Norm during Learning and with the Administration of Peptides - R. I. Kruglikov, N. V. Orlova, and V. M. Getsova 128
Development of Auditory Sensitivity of Altricial Birds: Absolute Thresholds of the Generation of Evoked Potentials - L. I. Aleksandrov and L. P. Dmitrieva 132
Reinforced Effect of Stimulation of the Mesocerebral Region of the Brain of the Edible Snail - O. A. Maksimova and P. M. Balaban 137
Impulse Activity of Neurons of the Parietal Associative Cortex in Conditioned Instrumental Food-Procuring Behavior of Cats - L. A. Daudova 142
Dynamic Reorganization of the Central Program of Precision Instrumental Movements in Cats - B. M. Sidorov 145
Influence of Small Cardioactive Peptide (b) on the Efficiency of Synaptic Transmission and the Excitability of Command Neurons of the Defensive Behavior of the Edible Snail - N. I. Bravarenko 148
Reactions of Neurons of the Mediodorsal Nucleus of the Thalamus to the Stimulation of Peripheral Nerves - R. A. Bagdasaryan and L. G. Vaganyan 153
Changes Associated with the Organization of Motor Acts in the On-Going Frequency of the Discharges of Neurons of Subcortical Structures of the Human Brain - Yu. D. Kropotov, V. A. Ponomarev, A. V. Sevast'yanov, L. G. Trofimova, and S. K. Etlinger 161
Descending Neuronal Projections to the Lumbar Division of the Cat Spinal Cord - V. K. Berezovskii and T. G. Kebkalo 171
Perception and Experience of Time by Patients with Depression in Manic-Depressive Psychosis and Attack-Like Schizophrenia - G. N. Nosachev 175

Volume 22, Number 3, May-June, 1992

Role of the Cerebral Ganglia in the Organization of Alimentary Behavior of the Pteropod Mollusc *Clione limacina* - I. S. Zakharov and V. N. Ierusalimskii 179

EXPERIMENTAL PATHOLOGY OF HIGHER NERVOUS ACTIVITY

A Neuropharmacological Analysis of Compensatory-Restorative Processes in Organic Deficit of the Parafascicular Complex of the Thalamus - E. I. Mukhin 187
Intercentral Relationships of Cortical Bioelectrical Activity of the Human Brain Following Operative Interventions in Brainstem Structures - E. V. Sharova, M. A. Kulikov, D. B. Barkalaya, and V. G. Amcheslavskii 194

PHYSIOLOGY OF ANIMAL BEHAVIOR

Interactions of Motivation and Reinforcement during the Performance of a Simple Instrumental Reflex by a Monkey - I. M. Norkin and V. V. Shul'govskii 206
Xenografting of Embryonal Tissue of the Neocortex into Aged Animals - R. P. Kleshcheva 212
Influence of Pyrogens on the Ultrastructure of Reticular Nuclei and the Nucleus Magnus of the Raphé of the Cat Medulla Oblongata - N. I. Netukova 215
Biofeedback Control of Systemic Arterial Pressure - N. N. Vasilevskii, Yu. A. Sidorov, and I. M. Kiselev 219

Catalepsy and Hyperkinesis Induced by the Chronic Injection of a Tetrapeptide into the Neostriatum - A. F. Yakimovskii 224
Localization of Neurons Innervating the Upper Portion of the Duodenum in the Motor Nucleus of the Vagus Nerve - V. A. Bagaev, F. N. Makarov, V. L. Rybakov, É. É. Gransterm, E. V. Kopylov, E. B. Pluzhnichenko, S. I. Smirnov, and L. V. Filippova 230
Perception of Temperature Elevation in Human Seasonal Heat Adaptation - M. D. Khudaiberdiev, F. F. Sultanov, and L. M. Pokormyakha 236
Correction of Apathic-abulic Manifestations of the Processual Defect by Cholinotropic Preparations - R. Ya. Vovin, A. Ya. Fakturovich, A. V. Golenkov, and V. O. Lukin ... 241
Features of the Electrical Reactions of the Sensorimotor Cortex to Real and Mental Movement in Left-Handed and Ambidextrous Individuals with Speech Disorders at Age Six to Seven Years - O. A. Vyatleva 246
Correlation Analysis of EEG Rhythms and Functional Asymmetry of the Hemispheres in Children with the Hyperdynamic Syndrome - N. A. Lastochnika and L. M. Puchinskaya 251

Volume 22, Number 4, July-August, 1992

Dynamics of Defense and Alimentary Reactions in the Development of Sensitization in Edible Snails - V. P. Nikitin and S. A. Kozyrev 259

NEUROBIOLOGY OF INTEGRATIVE BRAIN ACTIVITY

Layer-by-Layer Analysis of the Components of the Thalamocortical Responses of the Sensorimotor Cortex in the Rabbit during Ontogenesis - I. A. Shimko 268
Delta Sleep-Inducing Peptide as a Factor Increasing the Content of Substance P in the Hypothalamus and the Resistance of Rats to Emotional Stress - R. M. Salieva, K. Yanovskii, R. Ratsak, Ya. I. Trofimova, P. Oeme, K. V. Sudakov, and E. A. Yumatov 275

METHODS

Estimation of the Significance of the Extrema of Correlation Functions of Impulse Sequences - B. V. Bakharev 280
Device for the Investigation of Metabolic Processes of the Nerve Cell in the Period of the Generation of the Action Potential - L. V. Bobrovnikov 284
Metabolic Reactions in Sensory and Motor Neurons during the Effect of the Organism of Certain Physical Factors - T. A. Vylegzhanina 287
Reactive Changes in Adrenal Innervation of Cerebral Arteries in Conditions of the Activation of Cholinergic Mechanisms - A. P. Pugovkin and S. G. Lazarev 292
Plastic Changes in the Intact Cerebral Cortex as a Result of Local Injury to a Symmetrical Division of It - Z. N. Bakhchieva, Z. A. Avetisyan, and N. O. Movsesyan 297
Activity of Cat Parietofrontal Neurons during the Performance of a Voluntary Movement - T. V. Il'icheva, T. V. Khitrova-Orlova, I. I. Korenyuk, and V. B. Pavlenko 303
Reactions of Neurons of the Posterior Ventral Nucleus of the Thalamus of the Rat during Movements of the Vibrissae - G. I. Paleev 310
Influence of Taurine on the Electrically Regulated Ionic Channels of the Somatic Membrane of Neurons of the Pond Snail - A. I. Vislobokov, V. V. Mantsev, A. G. Kopylov, and V. S. Gurevich 315

Increase in Excitability of Cortical Nonspecific Structures in the Presence of a Decreased Level of Influences from the Brainstem Reticular Formation - V. V. Lavrov 320
Dependence of Impulse Reactions in Surviving Sections of Cortex on Stimulation Parameters - I. L. Les'kov and S. V. Karnun 328
Participation of the Medial Reticular Formation of the Medulla Oblongata in the Supraspinal Control on Locomotor and Postural Activities in the Guinea Pig - V. V. Marlinskii and L. P. Voitenko 336
Treatment of Negative Crises (Panic Attacks) - G. M. Dyukova, I. P. Shepeleva, and O. V. Vorob'eva 343
State of the Mechanisms of Autonomous Regulation in Raynaud's Disease - G. R. Tabeeva ... 346
Bioelectrical Activity of the Cerebral Cortex in Patients with the Secondary Generalized Form of Epilepsy in Hypnosis - G. V. Selitskii, V. A. Karlov, and N. E. Sviderskaya 349

Volume 22, Number 5, September-October, 1992

PHYSIOLOGY OF ANIMAL BEHAVIOR
Peptidergic Modulation of Learning a Motoric Food-Procuring Conditioned Reflex Skill - E. G. Petukhova and M. M. Kozlovskaya 357
Role of Dopamine Receptors in the Regulation of Aggression in Mice; Relationship to Genotype - E. M. Nikulina and N. S. Kapralova 364
NEUROBIOLOGY OF THE INTEGRATIVE ACTIVITY OF THE BRAIN
Dynamics of Interstimulus Intervals in the Activity of Neurons of the Sensorimotor Cortex during the Development of a Food-Procuring Reflex in the Rabbit - D. V. Timoshin 370
Active Electrogenesis of Command Neurons of Defense Behavior of the Snail during Conditioning - N. V. Babkina and L. E. Tsitolovskii 380
The Monosynaptic Connection: Modulating Influence of Opioid Peptides on the Plasticity of Presynaptic Neurons and Identified Synapses - T. L. D'yakonova and G. G. Arakelov 386
Arachidonic Acid and Its Acyclic Derivatives Regulate Short-Term Plasticity of the Cholinoreceptors of Neurons of the Edible Snail - A. S. Pivovarov, E. I. Drozdova, and B. I. Kotlyar 393
Stimulated Shift in the Stability of Heart Rhythm as a Condition of the Activation of the CNS and Perception of a Stimulus - Yu. V. Uryvaev and Yu. P. Zverev 401
Irreversibility of Disruptions of Integrative Activity Induced by Damage to the Amygdala, with Unilateral Transplantation of Embryonal Amygdalar Issue - N. M. Khonicheva and E. A. Lushchekina 404

ORIGINAL INVESTIGATIONS
Structure and Nature of Macrophages Participating in the Wallerian Degeneration of Nerve Fibers - E. I. Chumasov and K. M. Svetikova 408

BRIEF COMMUNICATIONS
Localization of Opiate Receptors on the Internal Surface of the Cell Membrane - L. A. Gromov and S. V. Krivorotov 415
Features of the Behavioral Reactions of Rats during Exposure to Constant Electrical Fields of Varied Intensities - N. M. Gromyko and O. L. Krivodaeva 419

Influence of Pulse Stimulation of the Visual Cortex on the Function of the Superior Colliculus of the Awake Rabbit - N. A. Gadzhieva, F. B. Kulieva, L. É. Kul'gavin, and É. I. Kuliev 423
Role of Adrenoreactive Structures of the Amygdaloid Complex in the Regulation of Blood Coagulation - A. A. Shandra and V. P. Glukhov 430
A Microdialysis Investigation of the Release of Norepinephrine in the Hypothalamus Induced by 2-Deoxyglucose in Awake Rats - A. I. Kuz'min, M. B. Bogdanov, and O. S. Medvedev 436

NEUROPATHOLOGY
Clinical-Physiological Characteristics of Syncopal States in a Prolonged Q-T Interval Syndrome (Ward-Romano Syndrome) - A. M. Vein, S. B. Shvarkov, R. R. Giorgobiani, M. A. Shkol'nikova, and M. I. Laan 440
Some Neurophysiological Aspects of the Investigation of Children with Gilles De La Tourette Syndrome - L. P. Yakupova, A. Yu. Smirnov, I. A. Kozlova, N. L. Gorbachevskaya, and L. F. Kozhushko 444
Specificity of the Neuropsychological Syndromes of the Disturbance of Higher Mental Functions in Alzheimer's Disease and Senile Dementia - N. K. Korsakova, N. R. Dybovskaya, I. F. Roshchina, and S. I. Gavrilova 447

Volume 22, Number 6, November-December, 1992

Role of the Time Interval in the Effect of Neurochemical Signals in the Changes in the Ultrastructure of Cortical Synapses - G. G. Khludova, A. A. Myasnikov, P. A. Gusev, and V. F. Lyal'ka 471
Dependance of the Ultrastructural Changes in Cortical Synapses on the Time Interval between Associated Neurochemical Signals - G. G. Khludova, A. A. Myasnikov, and V. F. Lyal'ka 473
Electroencephalographic and Vegetative Correlates of the Mental Reproduction of Emotional States - O. A. Sidorova, M. B. Kostyunina, and M. A. Kulikov 475
Mechanisms of Motoric Learning - M. E. Ioffe 481
Intralimbic Evoked Potentials during the Formation of an Alimentary Conditioned Reflex in Response to the Electrostimulation of the Hippocampus of Dogs - L. I. Chilingaryan and G. A. Grigor'yan 495
Certain Methods of Biomechanical Description of Various Postural Adjustment Patterns during Motoric Learning in Dogs - A. V. Aleksandrov, O. N. Vasil'eva, M. E. Ioffe, and A. A. Frolov 503
Correlational Relationships of Evoked Activity of the Auditory Cortex and the Amygdalae of Cats during Conditioned Reflex Activity - G. L. Vanetsian 512
Respiration and Oxidative Phosphorylation of the Mitochondria of the Brain of Rats with Various Types of Behavior - L. M. Livanova, K. Yu. Sarkisova, L. D. Luk'yanova, and I. A. Kolomeitseva 519
Participation of Nonlinear Dynamic Processes in the Formation of the High-Frequency EEG of the Rabbit - T. M. Efremova, M. A. Kulikov, and I. R. Rezvova 526
Synaptic Architectonics of the Molecular Layer of the Cerebral Cortex of Rats during Audiogenic Epileptiform Attacks Against the Background of Regulation of the Level of Cerebral Convulsive Readiness - S. I. Ereniev, S. S. Stepanov, and V. V. Semchenko 533
Problem of Excitability in the Works of L. L. Vasil'ev and Its Further Development - A. G. Kopylov 537
Compensatory Plasticity of the Brain Under Conditions of Its Injury - M. S. Sinyaya, D. Yu. Pinchuk, A. M. Shelyakin, T. V. Tobias, and O. V. Bogdanov 543

Engl.

Afferent Control of Cortically Evoked Reactions of Spinal Cord Ventral Horn Interneurons - K. S. Predtechenskaya and E. T. Blagodatova 550

An Electrophysiological Analysis of the Hippocampal Projections to the Neurosecretory Cells of the Supraoptic Nucleus of the Hypothalamus and the Neurons of the Perinuclear Zone of Rats - N. P. Prutskova and Yu. A. Petrov 558
